Architecture AutoCAD Architecture is a component-based 3D
architectural design and drafting application for architects,
engineers, contractors, homeowners and more. It works with
Autodesk DWG and DXF file formats and supports the import
and export of 3D objects and 2D drawings. Other features
include the ability to create, view and edit 2D/3D drawings in
a web browser, BIM (Building Information Modeling)
integration, and the ability to convert 2D into 3D and back. In

References Category:Windows-only software Category:2014 software Category:Technical communication toolsField of the Invention The present invention relates to a power supply apparatus and a method for controlling the power supply apparatus. Background Art Heretofore, in the case of supplying electric power from a power supply

apparatus mounted in a vehicle such as an electric automobile or a hybrid automobile, for example, to a power-use electric device in the vehicle, when the electric power is supplied, generally, the electric power is sequentially supplied to a plurality of electric devices in a predetermined order. As one of the above methods, for example, there is a method for determining an order in which electric power is supplied to electric devices to be supplied with the electric power and an order in which the electric power is supplied to the respective electric devices.

St. Francis Church in the Heart of the City

St. Francis Church in the Heart of the City is a historic church located at Newark, New Jersey. It is the first Catholic parish in New Jersey. It is home to a new Catholic School for Grade 1-8, a school located in the former parish school on the ground floor.

History The parish was established by Father Francis Borgia, a priest who had arrived in New York City in 1767 from a Spanish town in the Canary Islands and served as the first pastor of the Mission of St. Ann in the Bronx. A small group of Catholic families living in New York City were recruited by Borgia to help establish a parish in the city. They

had their first Mass on January 1, 1788. The parish grew to 2,000 families and had 29 priests, at one point known as the "Queen City of the East". In
