Open the folder named "serverData" and copy the generated.mdl file to the folder where the autocad files are located. Open the Autocad file with the.mdl extension, check the first tab "Design". You will see that a file named "Brick.mdl" has been generated. Open this file with a text editor. Look for the property "Brick_bUse" and change it to true. Save the.mdl file. Now repeat the process for all the other tables you want to simulate. After that, you will be able to activate all the bricks as you wish. The.mdl file can be used for both.dwg and.dxf files, so you can open it in any CAD software to build your model. india Updated: Jul 23, 2019 00:47 IST A 23-year-old student from Kerala's Kozhikode district was allegedly thrashed to death allegedly by her classmate, a 19-year-old resident of Union territory Jammu and Kashmir's Pulwama, over a dispute regarding a WhatsApp group that the latter was a part of. The news of the death spread fast on WhatsApp in Malappuram district and a heated argument erupted over the victim's alleged involvement in the purported death. "The victim's classmates first took her to a nearby hospital for treatment, where she died a few days later. The deceased's family then lodged a complaint and her postmortem report confirmed that she had died of multiple injuries. We also have CCTV footage of the alleged attack, which shows the accused thrashing the girl with a stick," said the police officer supervising the probe. Police have arrested the accused student, identified as Zahid. He is a part of the same WhatsApp group, police said. The accused has been booked for murder and abetment. "We are also looking into whether Zahid knew the victim," the officer said. The officer said the victim did not have any personal enmity with Zahid. "The issue cropped up after Zahid was trolled over a picture of the victim in which she was wearing a bikini. Zahid had complained about the picture to the victim's family members. However, they got into a fight over the matter. Zahid then started getting agitated and thrashed
