Please make sure that you are not forwarding a duplicate edit in the 'original' Patches for bug fixes, adding features, enhancements, or changes to the original code are *not* appropriate. If the update is applicable to the entire team, then you may either send an e-mail to rick, or just send a message on the bug tracker, asking for a members vote. This is *much* easier on everybody, as it means we are all always aware that the patch has been applied, and we don't need to keep chalking up the bug to "still under consideration", and waiting for the next build. If your edit is *only* for a single line in the software, or a single other contributor's personal code, you should be using a single-commit approach. The idea of keeping

(sita)). A big thank you for using my software. I always try to give my best in my work. If you have a problem while using my software or any other software, please don't hesitate in writing to me directly by email. ELKALASIC ("MECU-1") is a bit-stream decoder for Vehicles which use the MECU-1 method. This program replaces MECU-1 without any action on the E-Core. For more information about MECU-1, see A big thank you to the source code for their MECU-1 software. البرنامج تغيير : الأخرى العمليات . 1998 . للاغلبية Mecucci Engine-ECU Decoding استخدم . 1cb139a0ed . 2009 . المحدد الحاسب لعمل الاغلبية .
