Today, attorneys at Oceana's Conservation Law Foundation are working with partners to amend the U.S. citizen's constitutional right to fish. The U.S. government limits how much fish people of legal age may catch. But in the Gulf of Mexico, a major artery for commercial fishing, few limit. In the Gulf, commercial fishers harvest 500 percent more fish than scientists can safely manage, according to the U.S. Fish and Wildlife Service (FWS). This makes the Gulf one of the most productive fishing grounds in the world, and it ensures the Gulf not only remains healthy but remains economically attractive to the majority of Americans who fish. The result? Most fish sold in grocery stores are caught in the Gulf of Mexico. The income generated is vital to the economies of coastal communities. It is also the lifeblood of the communities' students and teachers, many of whom turn to fishing to help support their families after school. This Gulf fishing boom is one that's worth protecting. Unfortunately, new regulations take away the rights of nearly 200 million American citizens to fish on the Gulf of Mexico, allowing only certain professional fishermen to do so. For a federal agency such as the FWS, this is a staggering loss. The
