I have flight search result on my page. How can I retrieve these results using Google Maps API? I want to get flights status with their departure/arrival airports and flight time. I have searched a lot and nothing comes up. Any help would be very appreciated. A: It is not possible with the Google Maps API. There is no complete list of googleapis related flight status as of today. /* * Copyright (c) 2013-2016 Isode Limited. * All rights reserved. * See the COPYING file for more information. */ #include #include #include #include #include #include #include #include #include #include #include #include #include #include using namespace Swift; class StakeholderRegistrationTest : public CPPUNIT_NS::TestFixture { CPPUNIT_TEST_SUITE
