Wherever you go, the fewer partners a woman has, the more she is valued. If she can hook someone up, then she can find a partner and truly be a happy woman. If a woman only has sex a few times a week, she will be unhappy anyway. We must not forget that sex is part of sex. If a woman will have sex with only a few partners, then she is unlikely to be able to remain happy for a long time. She will have to choose. Either give all of yourself to the family, or, if she wants variety, give herself to sex. The phenomenon and phenomenology of sex are mutually related. The secret of female happiness lies in the fact that you need to participate in sexual intercourse with many men. This is indeed an extremely great temptation. And really, why not? Why wonder what men want when you can get it... You have to be true to yourself! Sex is the basis and centralizing principle in a woman's life. In how she uses sex for growth, development and happiness. With many of those I have just spoken to, this question has never come up. They don't think about it at all. As they say, why think about men if you can achieve it? That is why a woman like Natalya Molchanova is involved in social activities so that her daughter Natashenka can also have such an opportunity. If her daughter Natasha grows up in such an atmosphere and surrounded by women like my mother, both men and women will strive for the same. And my girlfriends always told me: "It's cool if you meet a guy like you yourself." It was impossible. They couldn't imagine that I would meet such a guy. When we accept some of these principles, we want it to be unaffected by our current condition. This also applies to sex and relationships with other people. Before I had this idea, I began to think about: "What else can sex bring to a woman's life?" I wonder how people feel about sex, which has ceased to bring them satisfaction? What do men love the most about sex? I think people still like variety more. Maybe people like to have sex more when it's limited to one or two partners. Not everyone I talked about was happy with one man. May be. But it seems to me that such men just wanted to be able to date a lot of women. One of my greatest debating opponents
