allowed six runs on 15 hits and three walks in nine innings while striking out seven. In his last start, against the Orioles on June 21, Ramos allowed four runs and five hits in 5 1/3 innings, striking out two and walking none. The Braves are looking to add a starting pitcher before the non-waiver trade deadline. They've had trouble finding a permanent fifth starter since Paul Maholm went on the disabled list, but have made a couple of in-season trades in an attempt to upgrade the rotation. First, they acquired right-hander Eddie Butler from the Twins for left-hander Alex Meyer in April. Butler went 1-3 with a 4.76 ERA in 23 games (20 starts) with the Braves, Twins and Rangers. Then the Braves acquired left-hander Mike Foltynewicz from the Cubs for right-hander Adam Duvall, whom they traded to the

A politician should never lie to their constituents, not even if they are not actually representatives of the people in that particular state. People like to point out that the members of congress do not actually vote on what gets in the state budgets, but they do. So it is only fair for the politicians to be as honest as possible with their constituents, particularly if you represent a majority of people in a state. Although I don't agree with his particular views on a few things, nor do I agree with this particular state's conservative governor as to the way to handle the wildfires, I feel that Gov. Brown did not cross the line when he spoke out against the underfunding of California's wildfire prevention programs, and I will defend him against those who want to criticize him for it. At the time he issued his statement, the CA wildfire count was already up to 91, which at that time was considered by CA officials to be a "severe" year for wildfire seasons, and the US Forest Service's own preliminary wildfire season forecast predicted that the season would be "extreme" for CA, so I think it's fair to say that Gov. Brown's statement that state budget cuts have left the state underfunded and "put the lives of firefighters and first responders at risk,
