Not only can Social Poster be used for submission to social and bookmarking sites, it also can be used for cross-submission among these sites. In other words, once your submission is approved, you can start submitting it to some other social and bookmarking sites. This step can be done one submission at a time. Since this application is completely text based, it is not suitable for images. It is available for all type of operating systems. To keep your data secure, it has a built in SSL certificate so that no one can access your data. All your data are housed in the cloud with no third-party access. Other than the submission process, you can also get some recommendations from these websites. And if the website accepts comments, they are all saved in the cloud. The feedback for your submissions also helps you with a better page

By fulfilling the requirements of every website of those, you'll end up spending 20 to 30 minutes every day just submitting your content to these websites if not even more. But Social Poster is here to save the day. It is a software that will make content submission to the websites as easy as drag-and-drop (or for those who like the term "drag and upload"). Every new feature is introduced to make your content submission to the social and bookmarking websites as easy as a child's game. Social Poster Has The Following Features: 1. Batch Submission Feature – This is the most significant feature introduced in Social Poster. If you want to submit your content to every single social and bookmarking website in your sites, Batch Submission feature can be your

---

savior. With this feature, you just have to create a single content and click the ‘Submit’ button and your content will be submitted to every social and bookmarking website in your site. 2. Trendy Websites – After every submission, your content will be displayed to you on a specific tab of your dashboard. With this, you can edit the details of the website and decide which one to submit to. To make it even better, Social Poster has already collected a list of over 500 websites from different categories like social, bookmarking, news, blogs and many more. The choice is yours. You can submit your content to the websites in that category. 3. Submit to Specific Website – If you’re not satisfied with submitting

bookmarking sites for free and gain more traffic and higher page rank with no effort on your end. This software will process your content and submit it to all the social and bookmarking sites you select from a list which already has a large database of websites. When you submit your content, it automatically goes to the progressbar. Depending on the time of your first submission, at the end, you'll get the review page of each social and bookmarking website. At this page, you can get the most up-to-date info about the status of your submitted content. As soon as the status changes from the processing to the accepted, you'll get the updated info about the content. You can then submit your next content. In case of any problem in the processing of your content, the software will give you step by step instructions to fix it. It has a clean interface, so you'll find it very user-friendly. No Permission Required: Social Poster does not require any permission

## System Requirements:

Before you start playing - consider the following: For real-time computing, the number of times a function or procedure is executed per second is important. Even a small increase in the number of times a function or procedure is executed per second can cause a huge drop in performance and at some point result in a game freeze or crash. This is a multiplayer game - In order to be able to play with friends, you need to be on the same version as them. Tutorial - If you are trying to figure out how to play the game, we suggest that
