Tuesday, February 27, 2010 A master of the big data deluge has created a highly sophisticated 3D visualization that visualizes the flow of 20 million tweets over a 27-month period. And by pretty much any measure, the picture paints a compelling picture: human affairs moved in unusual, unexpected, and enduring ways – despite the fact that it was a Twitter revolution that “saved the Queen.” Such is the power of social media: If the human form follows the rule of three, so too does global information flow. “Threads are real but, like anything in real life, we don’t tend to look at them the same way more than once,” says Tom Jamieson, co-author of The Social Media Revolution. “Our culture tends to assimilate new threads into existing systems, but threads also have this tendency to cross
