Pirate League was released on December 4, 2010 Pirate League is a free online browser-based puzzle game developed by Kalire Studios and released on December 4, 2010. To date, only a free version is available, while a paid (Premium) version was planned for 2011 but never released. Gameplay The goal of the game is to make all the pirate flags match a word that is presented on the screen. If your word is the correct one, you can see how many points your flag has earned and the percentage in which they are on a hit. Along with the introduction text, players can earn points in several different ways, with a scoring system, earning trophies, or waiting for other players' rewards (each form of points is indicated with a different icon in the top left corner of the screen). The game has an option for the game board to be

hidden, making it easier for players to keep track of their positions, and it also allows players to focus on spelling their word. Achievements A player can earn a number of trophies for each level they complete. Each level, which is visible in the top left corner of the screen, is indicated with a different icon, in that it shows what trophy can be earned. The highest level completed is the Golden Trophy for level 50, which can be done in 100 hits. Some levels have hints for the user. Upon completing all the trophies of a level, a player can view a higher-level version of that level. Once a player has completed a certain number of trophies (according to the user's chosen level) and obtained the appropriate number of trophies in the achievement's icon, that particular achievement is unlocked.
