When I try to start the game (with the patched patcher) on the N64 menu, the game crashes and the N64 freezes during the title screen. I changed the so called backlight color and the n64 to 1600x1080 and still the same. Any ideas? thanks so much :) EDIT : After the installation of the roms (the last update) I see that all of the games in the collection are in English (while they are all Japanese). System Check Please check that your N64 is operating correctly and you have system code/console mode. Don't ask me how to do this or if you are in the correct spot, I have no clue. Most likely your N64 is not operating correctly. If you have an IOS and SYS files (which if you did not make, will be somewhere in the roms folder) you need to import them from the N64. The IOS and SYS file may have to be found in one of 3 places 1) The ROMs folder directly in this zip 2) The main folder of the roms, located in this zip 3) The DVD folder in the New folder, located in this zip If you have SYS and IOS files, you will need to import them directly into your N64 after changing the IOS and SYS files. It's very easy to do, just follow the instructions under the "Importing" tab.The following are the names of the Cubs minor league affiliates.
