\* The online Photoshop tutorials are listed in Appendix A. ## Templates Photoshop provides a great number of templates to choose from. A template is a file that comes with a preset design or is a completed project file that can be used as a starting point for your own work. A Photoshop template is often a picture in a file format that contains a picture to base your own work on. However, most popular templates are graphics that are freely available online, such as color palette graphics, stock images, and clipart images, or they can be purchased. Templates can be downloaded to your computer and then opened up as a blank project file. Photoshop allows you to make changes to an image or to add new elements. You can then save the file as a new project, open it, edit, and save the image again. Photoshop templates are not limited to photographs; you can use templates for graphic design, logos, or even items found in the real world. The following sections describe some of the more popular templates to use for graphic design and web design projects.

Photoshop CS6 is a type of photo editing software that allows you to enhance and improve your photos, and add special effects. Adobe Photoshop is a program used for making photos, graphic designs, and social media posts. The number of options available for enhancing photos in Adobe Photoshop is staggering. You can use an array of tools for modifying, adjusting and coloring your image. Or you can combine different types of effects to create unique art pieces. There are over 30 tools available for enhancing and perfecting your image. You can alter colors, lighten or darken shadows, blend together layers, layer masks, and even change the subject. These tools are available on their own toolbars or in the layers palette. Adobe Photoshop Adobe Photoshop Elements is free software for computer owners. It is an alternative to Photoshop. This tool is great for photographers, graphic designers, web designers, and hobbyists. It contains most of the features of the professional version but with fewer features and a simpler user interface. Photoshop Elements is designed to be easy to use. With the average user being familiar with Microsoft Windows, it is best to be an expert in the software to get the most out of it. Beginner level computer users can also use it, but the number of steps to perform the same functions is significantly higher compared to other software. Photoshop Elements was released as a part of Adobe's Creative Suite 5 set and it is only available as an upgrade. Photoshop Elements can be used to edit images, create new high-quality images, or both. 05a79cecff

Let's apply for a range of these private lands in all three counties and hope we can get them committed for permanence. We are volunteering to participate in the Draft of a Comprehensive Plan for the Northwest MLCC, but have taken our first steps already by applying for a Recreational Management Plan and a Wetland Addition in Durham County, and an ADD, and a PUD/PUD in Orange County. We are pursuing workable and inclusive solutions for the following agenda items:•Expansion of woodlands, riparian buffers, and estuaries in and around the MLCC•Expansion of suitable public lands in various parts of the MLCC•Improving access to public lands within the MLCC•Improving access to public lands outside the MLCC•Enhancing connectivity to public lands outside the MLCC•Developing strategies that will provide a variety of public opportunities for outdoor recreation and conservation within the MLCC•Developing strategies to improve the visitation of public lands managed by the REC and CRMP We have been working on addressing these four broad issues, meeting with local landowners, county officials, The Red Land Trust, The Nature Conservancy, The Durham County Conservation Commission, The Conservation Land Trust, The Orange County Parks and Recreation Department, and the Orange County Department of Environmental Resource Management. We expect to complete a formal, comprehensive plan (about 200 pages) by the end of 2010. We are working with a team of environmental and recreational professionals to ensure that this plan is workable. We also are confident in the objective that we have achieved.Q: Show and hide all div content using javascript I have a list of divs, that displays the header for each one.
