An all-new player movement and pass model, underpinned by this data, immerses the pitch in every passing and tackling move, across an unprecedented level of detail. You'll experience the action like never before - with razor-sharp responsiveness, accurate ball physics and reactive gameplay. "FIFA 22 will capture all the emotion and intensity of a real football match, bringing you closer to the action and immersing you in every moment," said Sepp Blatter, FIFA President. "We will use this technology to introduce even more intensity and innovation to the beautiful game." "The new ball physics technology in FIFA 22 is a major addition to the game, allowing more control over the ball - with unique and unpredictable behaviour," said Oliver Bierhoff, Managing Director at SEGA. "Realistically reacting to the ball, both during passes and in aerial duels, the new ball physics allow players to pull off incredible moves." Exclusive demo To celebrate this introduction, FIFA 22 will offer a special, playable demo at launch, showcasing the core gameplay elements and exceptional player movement. The demo will be available in all territories and regions across all types of platforms. To download the demo, go to PlayStation Store and open the PlayStation Store section on your PS4 system, search for FIFA 22, and click on the "Play" button to watch the gameplay. FIFA 21 demo To celebrate the launch of FIFA 21, you can check out the FIFA 21 demo at this link. before,” said Yanick Lee, FIFA Brand Director. “We’ve used all the latest game development tools to immerse you in the world of soccer.” FIFA 22 will be available worldwide on 22 September 2017 on PlayStation 4, Xbox One, and PC. An FIMTEC Golden Jubilee The FIMTEC 25th Anniversary Golden Jubilee 25 years ago, the Multimedia industry was making a revolution at the Digital Signal Processor Market, then known as DSP or Digital Signal Processor. FIMTEC was one of the first international trade shows to offer a DSP demonstration. Since then, much more has happened, and so will what we offer in 2019.

**unmatched authenticity. FIFA 20 delivers the game that felt and looked like football and allowed you to play wherever, whenever, with whoever and against anyone. What can I expect in FIFA? FIFA delivers authentic football: Breakthrough Player Intelligence New camera technology called player intelligence delivers close-to-realistic ball control and movement. New, state-of-the-art motion capture delivers player animations that feel true to life. Player intelligence balances intuitive touch passes, ball control, and passes into the path of runs and shots, allowing you to perform plays and control the flow of the game to your preferred style. New Ribbons, New Shot Maker Every move, touch and shot in FIFA is presented with realistic animation, allowing you to control every moment. New Ribbons will challenge your control as you create creative and dynamic movements with dribbles, feints, and one-on-ones. New Shot Maker is the most authentic way to create shots and now you have full control over your pass and run options, goalkeepers, weather, and lighting. New Physics Engine The game features a completely rebuilt physics engine, delivering a more realistic and comprehensive gameplay experience. Whether you're controlling a ball, a body, or a player, physics is now integrated deeper into every facet of gameplay. New Vision System Every player has a new Vision System based on their speed and**
