FIFA is the best-selling football videogame series of all time, bringing together the intense atmosphere of the sport with the most authentic, official soccer action. Can I play with my friends? Yes! All modes include online play, enabling you to play with your friends on FIFA's revolutionary, console-based online play. What's the difference between FIFA 18 and FIFA 20? FIFA 20 brings

all-new improvements across the core gameplay experience. FIFA 18 features improvements in Ultimate Team, Career Mode and Online Play. How will Ultimate Team gameplay be different? The biggest addition to Ultimate Team is the pool. New cards can be put into the pool and are considered to be the best cards available on the market. Even if a card is not “new” it can still be taken out of the pool. The pool encourages spending just as much time planning your purchases as it does sourcing new cards. In FIFA 20 the amount of cards you can collect is restricted by your Ultimate Team card limit. There is also the concept of ‘trophies’. If you complete a certain number of cards in Ultimate Team you will be rewarded. These cards are displayed in the form of trophies which you can show off to other players online. Is Career Mode different? Career Mode, one of the most popular modes, lets you follow the career of a legendary player. In Career Mode, you play as a player and gain experience as you progress through the game. As you reach different career milestones, you are awarded with new skills, assists and more. Career Mode allows you to experience the career of a legendary football player and live out your fantasies. What else is new in FIFA 20? Multiplayer is also getting a new set of features, including: Global Pass System. A fully integrated Pass System will be in FIFA

20. You'll be able to control both the positioning and movement of your players. Your team can set up in a dynamic, flexible way to their opponents or even disguise their move. When the opponent moves, your team can react in a more intelligent way. Play with AI. You can now play with AI controlled teammates in Training and Online Seasons. Exhibition matches take place using the first versions of the FIFA 20 play engine. They're available to download and play
