Garmin City Navigator Europe NT 2018.6.1 Full Version

Ella is a midwife, a woman who makes a living in the great reaches of wild country. She meets strangers, both tall and short, demanding and nurturing, and she sees at a glance how beautiful and elemental their lives are. Imi is a nurse and a mother, and over four decades of care she has learned that women's bodies are unlike the laboratory flask they so often are compared to, nor are these roles easily determined in the body. Steve is a father, a surgeon, and a husband. He is also a man who has begun to think about his mortality, and the choices he must make when he does. Ella and Imi are born into a world of medicine and science, of notions of death and time. Their lives are shaped by science and progress, and though time and technology are part of their world, they are not of it.
