Featherfall is a real-time action RPG set in a fantasy world. You must dodge, jump, and dash in order to defeat the deadly enemies around you. There is no shield, no health potions and no magical items. Just you, a coin and a sword. Hi all! We've been working hard on the next set of surprises for Mini games Mania, and we are happy to say that next week will be a big week for the Mini games Mania as we will release the first game for which we would like to invite you to provide us with some feedback! :) A little background on the game: Mini games Mania is an adventure game based on a web comic by the same name. You control a young dwarf elf on a journey to save her lover from the evil clutches of an orc. Along the way you will find a number of hidden gems in the land. You will fight a number of challenges along the way and will also have to investigate your opponents. Finally, you will be able to speak to the Mini games Mania characters and master them to unlock special powers. What do you think? Were we happy with the result? Do you have any ideas for a game you would like us to develop? Leave a comment with your thoughts, share your ideas with us, make suggestions, make jokes and share the game with your friends! :) See you soon! :) Hi everyone, Next week, we will be releasing Patch 1.0.1 to fix several bugs in the game and improve the overall experience of the game. Included in Patch 1.0.1: First, a bug that prevents players from switching maps while already on them should be fixed. Second, the VR mode works as intended now. Third, the TIDC menu now shows the correct number of unlocked maps. Fourth, the letter "T" in the name of maps should be capitalized now. Note that these fixes are not included in the main release, but will be included in the update of next week's release. We'll keep you posted on our progress, and we would like to invite you to share your feedback with us through the following channels: 1) Leave a comment here or send us a message directly on twitter 2) Join us in our closed Discord group (invite link: We will keep you updated on the status of

Zero Spring is a game about a man who can see the true nature of all things. He wandered through the world using the Nervous Frequency, his way of seeing the truth. And at the final stage of his adventure, a girl called Yokia appeared, and showed him her view of reality. But there's something wrong with Yokia's perception of the world. She doesn't seem to have all of her memories back. Because the current "Yokia" has been replaced by the same "girl" with a lot of new memories, but they are false memories. They are false memories that Yokia was given by the others who wants to "save" her. This is a secret story about "someone" who is searching for the truth inside of Yokia. He discovered the true nature of reality and the truth is that there is no such thing as "Fate". And everyone can change themselves and make their own own fate... This game was originally planned to be a visual novel about the "Final Fantasy" series. And when it was decided to be a game of the same genre as "Bond Game", I switched the concept from a "Visual Novel" to a "RPG". Like "Bond Game", it will have a story and "battle system". And I also want to add some elements of "insanity" to it. This title will take place in a fantasy world. The government has put a lot of effort into the creation of "Peophor" technology. The main purpose of the artificial intelligence is to develop new people who can use the "Nervous Frequency". And the peophor technology has become a giant head that destroys everything. The Nervous Frequency can find the true nature of things. And this power has been given to people. People can use the Nervous Frequency to search out what other people want to hide. And it has ended up in the hands of "the same kind of people". And with the power of the Nervous Frequency, they want to control other people's fate. The people who are trying to fight back against this kind of tyranny are called the "Zero Spring". What do you think c9d1549cdd

Token Pack #111: Aquatic Adventures You have to be quiet at all times. Some fish are just nearsighted. They are too lazy to swim more than a few arm lengths, so they just wait for their prey and then lunge out at it. Our crew had discovered a large pool of water in the center of the campus north of the university center. The group’s research had proven that the water came from a misty rain that fell once every five years. It was a very rare event, and no one has ever discovered the reason for the mist. The pool extended from what seemed to be a considerable distance underground. The rest of the pool was still being worked on, but we explorers had been able to cross the entire surface and several of the edges. On the eastern end was an enormous pool, which we had called Kal Gath’s Pool. It was about 120 meters from the other portion of the larger pool. At the far edge of the large pool, we were able to rest our feet on the bottom of the solid ground. However, after the previous day’s activities and the lack of sunlight since arriving at the school, our mood was much improved. The sun had just set at the beginning of our walk, so it was time to grab a good meal. It also began to feel a little bit cold. The entire group was warm and full of good moods, but the moment the sunlight started to fade, we turned our moods toward ice cream. Even if we had eaten nothing but tacos the entire time, we still would have ordered ice cream afterwards. The ice cream was a university employee’s invention. It was made from the variety of sweets that could be had at the university. It was delicious, not as rich or delicate as what I had been accustomed to. I held a large cone in my hands as I went to a table and looked for a place to sit. “This is so delicious!” My elation did not stop even while I heard the large female voice. It was a pleasant summer day, so the temperature was right around 70°C. The woman who sat

down beside me was likewise very happy. She was wearing a white cocktail dress and a pair of lime-green flats. Her shoulder length white hair was neatly combed on top of her head. "Thank you for saying so. I think it's

Eat Your Words is fun word game for people who love word games. It is a unique mashup of a traditional word puzzle game and a candy/gem collecting game. VICTORIA TROJAN SAYS: "I love word games, but I'm sick of the same type of word games. Eat Your Words had me laughing the whole way through with its silly sense of humor. The word board's small size and simple graphics make it easy on the eyes. With its clean and intuitive interface, it's a breeze to play, even for those who've never played a word game before. I will certainly play it again and keep coming back!" FREE ON STEAM CRITICISM & REVIEWS

Reviews from the Steam community and press: "A cute word puzzle game with a tongue-in-cheek sense of humor." — IGN "What does that tell you? Eat Your Words is an extremely creative and original game." — World of Words "Eat Your Words is probably the first game I've ever seen that can be considered fun for families." — GameSpy "I love the idea behind Eat Your Words; it's a clever mash-up of a classic word search game and a puzzle game you'd usually find in a candy shop. I'm definitely looking forward to seeing what other cool ideas it has in store!" — vannah "I just played Eat Your Words today. I'm guessing we've all played a version of this game before. But what makes this game unique is that the first puzzle it gives you is clever and fun. It will keep you entertained until you finally complete all the puzzles, but at that point it's hard to say whether you want to keep playing." — Penny Arcade "Ridiculously cute. Creates a frustratingly difficult word puzzle that's just the right amount of silly fun." — Frenchgamer "Eat Your Words is an enjoyable game for anyone who likes word games." — MakeMag
