Provides you with features for price optimization Provides you with features for price optimization. It helps you optimize your prices according to your product's size, category or other factor. Supports the Amazon Product Advertising API Supports aa67ecbc25

Kucadoo Pricer

Kucadoo Pricer is a price management application designed to work with Amazon. It uses the Kucadoo mobile app to allow you to manage your Amazon prices on the go. All of the price changes made in Kucadoo Pricer automatically sync to your Amazon account. **Process Flow:** As soon as you start the Kucadoo app, you'll be greeted by the dashboard. At the top you'll see the top of the list of all the items in your store, updated hourly. It's easy to find what you're looking for, because it's always at the top.

1. **Select** Once you've selected the product you want to set a price for, you can set a real time price or a price from the past.
2. **Set the Price** You can adjust the price as many times as you want, without making it inapplicable to your competitors by setting the quantity. This is one of the major features of Kucadoo Price List.
3. **Set Quantity** You can quickly set the quantity of the item if you're worried about any order being canceled or having the price changed (a price change will cancel all orders).
4. **Confirm Order** Simply confirm the order by tapping the checkmark in the upper right corner. The order will take place right away, and the order confirmation screen will pop up, with a link to your Order at Amazon, and your item available on the Amazon app.
5. **Refunds** Kucadoo lets you keep track of refunds on an individual item basis, so you can show your item to new customers.
6. **Expected Ship Date** When you set the price for an item, you can also set the expected ship date. This is useful if you need to know how long your item will take to ship, so you can be prepared for more or less inventory.
7. **Reorder** If you change your mind about an item, you can reorder it directly from the Kucadoo app.
8. **Set Multiple Pricing Options** If you have multiple pricing options for an item, you can add it to your Kucadoo Price List.
9. **Add to your account** If you want to update prices and quantity, you can just come back and click "Update." Kucadoo also lets you view your Kucadoo Price List, which keeps track of your prices and inventory. If
