What happens when a console manufacturer completes the development of their successor to one of its most popular video game consoles. And, rather than including this new console as a future upgrade that will be replaced two years later by an upgraded version, they release this shiny new box without a disc-drive?

Back in 2006, Nintendo released the Wii U console in Japan. With the advent of the

kristen bell The singer, songwriter, and actress speaks candidly about the changes in her personal life—and her career. Hi Kristen! Every day seems to get better and better. Ever since I was young and watched my mom struggle to get by, I had a sense that hard work is the only way to get ahead. I like to keep busy, be around other people, and have a clear focus. You can tell I'm a morning person, because my best energy comes around 7 in the morning. I want to be fit and healthy, so I take care of my body. I have an amazing trainer and I make sure I get a good work-out every day. I enjoy doing my workouts, but I also love to read, which helps me stay focused and not lose myself in a book. As I get older, I feel like my strength and focus are some of my strongest assets. How much of your music reflects the life you lead? I want my music to have a connection to who I am and what I'm feeling. When I write, I'm influenced by whatever I'm going through. I feel like everything I do, good or bad, makes me who I am today, and I use my music to tell people about that. Sometimes I write songs about the things I'm feeling so I can share that with others. But I also write songs from my own experiences and I do a lot of research to dig deep into my personal life. You've written about your gender identity a lot recently. What's been your experience with your fans? I've written about a lot of personal things and it's all about me, but in different ways, and from different sides of me. I like to write about the inside of me. I'm open with everyone about what I feel inside, because I know if someone can relate to my feelings, it can help them. I've written about my own struggles with depression and anxiety, and about my hopes and my dreams. I've written about being a person of color and I've written about the beauty of my Mexican culture. I know that many people struggle with these things too. Hearing what people have to say about my songs can make me feel less alone. I think that my fans are very diverse in the way they think about things. I
