

09/26/2017   Hello everyone, I have about 20 hours of work on the line here, and I have never encountered this problem before. Everything is fine with the file. Net Framework is up to date but the server doesn't seem to want to load it. This is not the first time this problem has occurred and I have some ideas. I think it might be a problem with my network card, or maybe there is some other problem. It's okay, I'll be back in a few minutes and try again. 09/27/2017 - Hey! Hello, this is Max. I was on the chat when I ran into this issue and I noticed that a lot of people have run into it. I had the same experience as you.
