your project. it can also be used for e-learning and education videos which require lots of text and 3d objects. the 3d text elements are compatible with videos, animations, and motion graphics projects in adobe premiere pro, and of course ae. it also lets you create 3d text elements from shot sequences using matte or transparency or graphics elements in multiple formats such as hd video, 3d video, and frame animation. the 3d text elements can be dynamically imported into your project and reused, or replaced with 3d objects from the library. element 3d gives you the power to quickly create 3d objects from any type of source such as hd video, 3d video, text, frame animation, and more. it is compatible with video, animations, and motion graphics projects in adobe premiere pro, and you can export all the created 3d objects as a nested xml node tree and replace or delete all the objects in one go.

**2d Text Preset Pack For Animation Composer Plug In**

---

This package is designed to use with Adobe After Effects 3.0+ and Premiere Pro CS5+.

The presets are a perfect fit for any text animation project. All you need to do is import the presets into your Adobe After Effects project and then begin playing with each preset. You can try all the presets to decide which one fits your needs the best. Buyers of your projects do not need to buy anything extra to edit your project. The plug-in is not required to open and edit the file. However, we would recommend to get the plug-in, as it offers many benefits. For example the duplicating layers which have presets applied on them is hassle free, because Animation Composer automatically fixes linked expressions while the layer is duplicated (and much more). The Plug-in is packed with over 1,000 presets which you can use to make 2D vector texts and logos, and turn them into beautiful blobs of crazy bouncing crazy bouncing animations that will blow your mind. Whether it's products for print or online, use the plug-in to create and
