In addition, we have included a number of new additions and changes to Ultimate Team, including the return of referee and assistant referees to the social interface. We have also significantly improved the handling of downloading and uploading your favourite players and kits. Of course, the most important addition will be the face scanning functionality, which allows users to create custom faces. Players that already had a custom/scanned face in previous FIFAs will be enhanced with new face modes and will give the sensation of a second, new face to FIFA 09. Game release FIFA 09 players can now download and install the patch using the EA Support Center and the FIFA 08 Patch section of the EA Support Center. These patches are designed to bring the world class that only FIFA can offer to the FIFA 09 disc version. A Club and Update patch has been released which allows Club Members to download and install the update without spending the 1.00€ to purchase a Club Membership at any time. Players can visit the Club and Update section of the EA Support Center to download and install the patch. This update is in two parts. A. (01) Club Update (02) Update.
