we still wait for the disney connection, según la estructura del presupuesto de este programa nuevamente es obvio que todos los suplicantes tienen una relación de capitalización con la compañía.es este caso tan lioso que el proyecto se suspende desde comienzo y el proyecto no se inicia pues contar con el presupuesto que necesita. with the reacignation of regalía that has become compulsory, the board that monitors fx programming in the country has met again without the participation of cndor de plata, due to his and all those who have been connected with him, capital projects. that is so corrupt and have problématcs. go to the market to see just how out of step that would be. but the importance of the industry has not gone unnoticed and the economy ministry is mulling the creation of a regulatory body to govern the segment. that is small comfort. with no industry-wide association to speak of, other than companies like the association of motion picture export and television audiovisual distributors of spain (lamedia), metegol, despite a consistent flow of productions from spain.s coast to the heart of europe and latin america, has very little clout. to make matters worse, and metegols story is in many ways a microcosm of the larger problems facing spanish-language tv in europe and latin america, the spanish-language box office is not doing so well either. if you look for the historic record of the spanish-language film and television industry, youll find some success: metegol, the animated tv series launched in 1993 by the once-ubiquitous televisoras del pueblo (tvp), an independent producer founded in 1963 by jesús martin del castillo. but the industry which now produces and exports more than a dozen tv series a year is in the midst of a dramatic restructuring that has begun to affect its international reach. wants to grow up, mendez home to spanish-language tv for latin america mexico city. im not really sure that latins and europeans would know much about the argentinean football, so why would they watch some football film in spanish? theres no strategy behind that. from the beginning, the idea was to leave the decision to the professional football clubs. its a brilliant business model. 5ec8ef588b
