The title says it all. Putting any number of Ninjas into play works, but really, you shouldn't even play ninjas unless you have at least six cards in hand and 40 tokens. And if you don't have cards, this card might not be worth it. However, you should give it a try. If you play it, you should make sure you get some counterspells in hand, because this is a very good target for them, if they hit all of your ninjas, they will do 360 damage (15 X 4). This card is for if you manage to get the most out of taijutsu and no one counterspells (this includes Mejai and Heavy hitters), or if you are with several ninjas and are high on points. I feel like I shouldn't be in this section, but there are only three Ninjas in current builds and the tag icon hasn't been out yet, so this is it. This is one of the best cards in the game, if you manage to get a lot of Ninjas into play. You see, when you make a change that isn't an extreme card, you can click on the upgrade button, and it will show you the cost of the card and some stats. Right next to the cost, the text says "Add this card for X tokens". That text comes up when you click on a card in your hand. Meaning, if you have a card, you can then click on this upgrade and then, from your hand, you can "add" this card for the "cost" of 0 tokens. All this means is that if this card, for instance, costs 25 tokens, you can add a card that costs 0 tokens into your hand for 25 tokens. This means you can get the Ninjas from your deck (or from the void) in the hand and equip a Ninja for free! This is a lot of value for the cost of 0 tokens, a ton of value when it comes to ninjas, because it helps you get them out of your deck, deck thinning!

quick explanation of the time frame: between sets 2 & 3 (1500-1550), you use the trials and take advantage of any boosts they gave to their trial cards, use their trials and get a boost, then take advantage of the boosts their trials have gained on their next turn. at level 3 (1550-1600), you get to enter the time permanent and get a boost from your trials, but only if you won, and only if your trial card was one of the two cards that was played in that set. then, to enter the time finalist space, you must win at least one game with your time trial. so you have to win two games in the same set with your time trial card; win all four games at the end of set 3 to enter the time finalist space; win four games at the end of set 4 to enter the time champion space; and win four games at the end of set 5 to enter the time world champion space. as of yet, download this full version epub of this anime, the best i've seen. in the latter half of the series, he and his friend set out to save their small village that was hit hard by a freak storm. i really liked the plot that shifted between the two boys who are so

different, yet together, fought for a common goal, fought to save their people, and eventually became friends. when i started watching this series, i thought that it was going to be just another anime about saving this guy's village from the hands of an evil wizard who wanted to destroy it. that was until the story took a turn and i realized that i was watching a fun and entertaining anime with some strong moral lessons in between the action, in-fighting, and battling. was i wrong? no. i'm glad i waited and actually watched this instead of just skipping to the end without checking anything out. i think this anime is worth checking out, and the fact that i liked it so much should help encourage you to at least watch the first episode. also, he isn't just a regular villager who wants to be saved. he's the local hard-ass who's been controlling the village all this time and doesn't want anyone to break into his home and steal what he has, but also wants a way to fight with more than swords and spears. the story has a lot going on, but i would like to see more action sequences and some stronger characters besides the main characters. the music, however, is beautiful and upbeat. i'm not exactly sure why it's a b-grade anime, but they just don't seem to know the right level to make the characters not seem weak, which adds to the entertainment that i enjoyed the most. for starters, the action scenes really didn't disappoint me. there were a few times that i didn't understand why some people were fighting, though. it seemed like it could've been done more creatively and a little less clumsily. i also liked that they used a variety of ways to get the reader to understand what was happening. a couple of scenes were simply through dialogue and a few were done through symbols that were animated in side-views. another thing that i liked about this anime was that every episode was tied to the next episode. i also liked the characters and how they grew over time. much like the main character, who started as a very selfish and greedy kid, gradually grew into someone who knows how to work together with people and started to understand how to put his selfish goals aside for the betterment of everyone. 5ec8ef588b
